I have gone over the attached material and marked
Plan No. 1 as the one we would like to have.

I am very much impressed by the layout and solutions
you have set forth and have no suggestions. Once the items
are here and in place there may be a little jockeying around to
be done but I am sure it will be very little.

Since you will be bringing the attached material out
with you when the equipment arrives, I am returning it now.

Again, our thanks. Look forward to your next visit.
